Summary

Results-driven Full Stack Developer with expertise in modern web technologies and cloud infrastructure. Proficient in developing scalable applications using React, Node.js, and AWS. Demonstrated ability to architect efficient database solutions using PostgreSQL and MongoDB. Passionate about creating user-centric applications with clean, maintainable code. Strong background in both frontend and backend development, with experience in implementing secure RESTful APIs and optimizing application performance.

Education

Bachelor's Degree in Computer Science(2020-2024)

JNTUH

CGPA: 7.0

Relevant Coursework: Data Structures, Algorithms, Database Management Systems, Web Development

Technical Skills

Frontend Development

React.js

TypeScript

HTML5

CSS3

TailwindCSS

Redux

Backend Development

Node.js

Express.js

RESTful APIs

Authentication

Database Technologies

PostgreSQL

MongoDB

MySQL

Amazon RDS

DynamoDB

Cloud & DevOps

AWS

S3

EC2

Elastic Beanstalk

Development Tools

Git

GitHub

Postman

Testing

Jest

Cypress

Unit Testing

Professional Projects

Talent Finder - Full-Stack Job Marketplace Platform

Architected and developed a comprehensive job marketplace platform connecting companies with potential candidates. Implemented robust user authentication and real-time application tracking systems.

- Implemented secure role-based authentication system for multiple user types
- Designed and developed real-time job application tracking functionality
- Built comprehensive CRUD operations for user profiles, job listings, and applications
- Optimized database queries for improved performance and scalability
- Implemented responsive design for seamless mobile experience

Technologies: React, Node.js, Express, PostgreSQL, Redux, JWT Authentication

View Project

E-commerce Platform (MERN Stack)

Built a feature-rich e-commerce platform with comprehensive product management and user authentication. Implemented secure payment processing and order management systems.

- Developed responsive product catalog with advanced filtering and search
- Implemented secure user authentication and authorization
- Built shopping cart functionality with real-time updates
- Created admin dashboard for product and order management

Technologies: React, Node.js, Express, MongoDB, Redux, JWT
