Aspiring Full Stack Developer

PROFESSIONAL SUMMARY

Enthusiastic Full Stack Developer with hands-on experience in building scalable and secure web applications. Proficient in React, Node.js, and SQL/NoSQL databases, with a focus on delivering responsive, scalable, and user-friendly solutions. Passionate about leveraging cutting-edge technologies to solve real-world problems and continuously upskilling in a collaborative environment.

TECHNICAL SKILLS

Frontend Technologies:

HTML   CSS   JavaScript   React   TypeScript   TailwindCSS   Redux

Backend Technologies:

Node.js   Express.js   RESTful APIs   Next.js   Authentication (JWT, OAuth)

Databases:

PostgreSQL   MongoDB   MySQL

Other Skills:

Git   GitHub   AWS S3   AWS EC2   Jest   Cypress

PROJECTS

Talent Finder - Full-Stack Job Marketplace Platform

Developed a platform to connect companies and candidates, emphasizing seamless user experience and secure data handling.

Tech Stack: React   Node.js   Express.js   PostgreSQL   Redux   JWT Authentication

- Designed and implemented user authentication using JWT.
- Built real-time job tracking features for efficient applicant management.
- Implemented secure JWT authentication with 99.9% user data protection
- Optimized database queries with PostgreSQL, improving response times.
- Created responsive UI using TailwindCSS, achieving 95% mobile responsiveness

Live Demo | GitHub

Real-Time Chat Application

Built a feature-rich real-time chat application to enable seamless communication between users with a focus on performance and responsiveness.

Tech Stack: React   Node.js   Express.js   PostgreSQL   Socket.io   Sequelize ORM   Redux   JWT

- User Authentication: Implemented secure JWT-based authentication for account creation and login.
- Real-Time Messaging: Integrated Socket.IO for instant messaging with typing indicators and message delivery status.
- Database Management: Used PostgreSQL & Sequelize ORM for efficient storage and retrieval of messages and user data.
- UI/UX Design: Designed a responsive and user-friendly interface using React and TailwindCSS.
- Performance Optimization: Optimized database queries and implemented caching strategies to improve performance and scalability.

E-commerce Platform - MERN Stack

Built a comprehensive e-commerce application with features for product management, shopping cart,order management, secure payments integration and admin panel.

Tech Stack: React   Node.js   Express.js   MongoDB   Redux   AWS S3   JWT

- Created a user-friendly product catalog with dynamic filtering.
- Implemented secure user authentication and role-based access for admin functionality.
- Developed checkout functionality with payment integration.(using Paypal APIs)
- Utilized AWS S3 for efficient image storage and management.

EDUCATION

Bachelor's Degree in Computer Science

JNTUH, Hyderabad | 2020 - 2024

CGPA: 7.0

RELEVANT COURSEWORK

Data Structures   Algorithms   Database Management Systems   Web Development
